## TRANSFORMATION

## Transforming Attitudes, Awakening Smiles

Discover how one man's path has been Transforming Attitudes and Awakening Smiles

It has been two decades, since I undertook this journey. And throughout, I have found interesting friends and met equally interesting people. And they are none other than guys like you-young, excited and above all winners.

Theatre for me began, when I was a student, at Army Public School. I was an active member of the school's dramatic club. Thereafter, I got selected for various documentary films like 'Heroes'- on National Defence Academy, which was aired on DD. After that, I got associated with Jamia Milia Islamia Institute and featured in a documentary on contemporary issues.

Moving ahead, I had the honour to be appointed as the Director of the International Theatre Festival for Children which was organized and collaborated by Ryan International School, Indian Council for CULTURAL Relations (ICCR), Sangeet Natak Academy, NSD and University of Cambridge in which 32 countries participated.

All through this wonderful journey spanning more than two decades, I have been conducting workshops and directing musicals, stage plays and short films. During these times, I also worked as an associate Director-Producer on 'Youngstars'- a children's talent and environment show concerning many leading schools of Delhi with Dilli Aaj Tak as the media and broadcast partner.

Apart from such creative opportunities, I was also associated with some of the best schools in Delhi like Bal Bharti, DPS, Springdales, Ryan International, DAV schools, Maxfort, FIIT Computers to name a few and helped them in awakening and transforming the attitude of their students. I also had the good fortune to train nearly 5000 teachers on request, from all these schools as I believe that, 'a good teacher explains, but a great teacher inspires.'

All throughout, I always dreamt of spreading the benefits of theatre to children. So in 1998, my dream - Strengths Theatre School popularly known as Sanjeev Datta's Theatre Course came into being. Also during these times, I discovered the impact of theatre in our lives and founded a technique called "Theatre & Techniques in Education" (T & TIE concept) along with specifically designed School Syllabus Oriented English Proficiency Module (SSOPEM). These practices have transformed the lives of more than 10,000 students and still counting...
